

Asylum Levels and Trends in Industrialized Countries

Second Quarter, 2006

**Overview of Asylum Applications Lodged
in 31 European and 5 Non-European Countries**

September 2006

**Field Information and Coordination Support Section
Division of Operational Services
UNHCR Geneva**

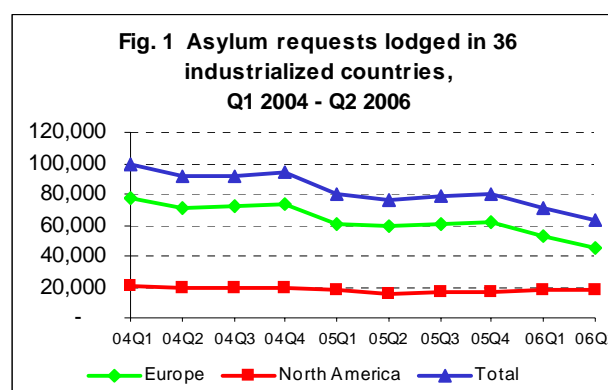

<http://www.unhcr.org/statistics>

Introduction

1. This report is based on monthly asylum application data received from national asylum authorities in Europe, North America, Australia, New Zealand and Japan and covers primarily the period 1 January to 30 June 2006. Currently, 36 industrialized countries are providing monthly statistics to UNHCR. Italy is the only major industrialized country for which no monthly data are available.
2. This report analyses the main asylum trends in 36 industrialized countries and does not make specific reference to mixed migration flows. Despite the humanitarian challenge and prominent media coverage posed by this phenomenon, in particular in Southern Europe, most migrants do not claim asylum and are thus not included in UNHCR's asylum statistics.
3. This report is generally limited to new asylum requests. Where possible, re-opened or repeat asylum applications have been excluded. Similarly, applications lodged during the appeal process are not considered. Statistical information on asylum-seekers accepted as refugees, those granted a complementary form of protection (humanitarian status, subsidiary protection etc.) or refugees who have been resettled, particularly by Australia, Canada and the United States, are published in separate UNHCR reports.¹
4. The figures generally refer to the number of persons seeking asylum, including minors. Because the data are reported by national authorities, asylum-seekers submitting a claim in more than one country may have been double-counted. The regional figures in this report are thus likely to overstate the total number of asylum-seekers. Asylum may be requested at the border, from within the country of asylum or at embassies abroad.
5. All data included in this report should be considered as provisional, subject to change. Due to retroactive updates, the figures in this report up to the first quarter of 2006 may differ slightly from those published earlier.
6. Permission is granted for the reprinting of any material from this report, provided that due acknowledgement is given to UNHCR as the source. Comments, questions or requests for further information may be sent to stats@unhcr.org.

Regional overview

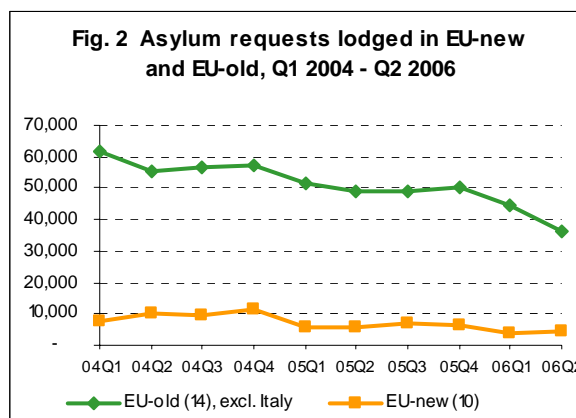

7. The number of asylum-seekers in the **36 industrialized countries** covered by this report continued to decline sharply. During the first six months of 2006, some 134,900 asylum-seekers applied for asylum, 14 per cent fewer than during the same period in 2005 (156,300) and 15 per cent fewer than the second half of 2005 (158,800). However, the decline was smaller than the

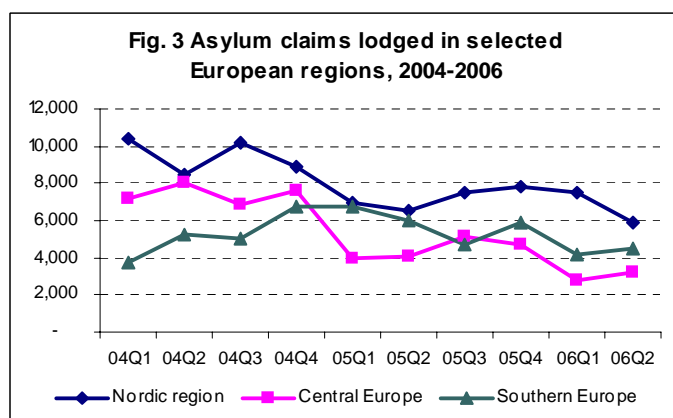

¹ See *2005 Global Refugee Trends*, UNHCR Geneva, June 2006, accessible at www.unhcr.org/statistics.

year before: from the first half of 2004 to the first half of 2005, new asylum applications had dropped by 18 per cent (see Table 1 and Figure 1). In total, the first six months of 2006 witnessed a 29 per cent drop compared to the corresponding period of 2004.

8. In **Europe**, 97,000 new asylum applications were submitted during the first six months of 2006, 19 per cent fewer than during the corresponding period of 2005 (120,200) and 21 per cent lower than the second half of 2005. This number represents a 35 per cent drop compared to the first half of 2004 (148,300). The trend is similar for the 24 countries of the **European Union (EU)** covered by this report.² The latter registered a 21 per cent fall in new asylum applications submitted during the first six months of 2006 as compared to January to June 2005 and 34 per cent fewer requests than during the first half of 2004 (see Figure 2 and Table 1). The largest relative decline in half-yearly asylum levels, however, was reported by the 10 **new EU member countries**. These countries received 8,200 new asylum requests during the first two quarters of 2006, a 30 per cent drop compared to the first six months of 2005 and a 54 per cent decline compared to the first six months of 2004.

9. Countries in **Central Europe** also witnessed a strong decline in the number of asylum-seekers during the first six months of 2006. Central Europe has been an important receiving region only a few years ago, however, fewer people have requested asylum in recent years.

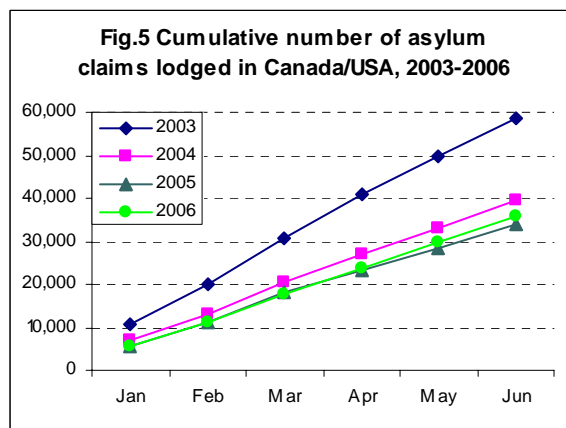

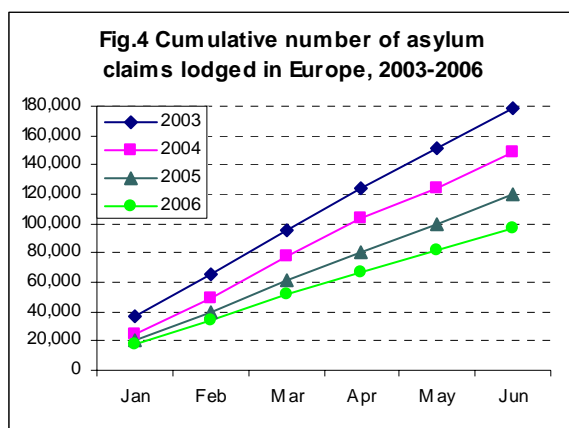

During the first two quarters of 2006, some 6,100 asylum applications were submitted, almost 2,000 fewer than during Q1 and Q2 of 2005 (-24%) and almost 10,000 less than during the corresponding period of 2004 (-60%) (see Figure 3).

10. Following the peak year of 2005 with some 23,400 asylum applications being submitted in **Southern Europe**², the number of asylum claims has started to decline in 2006. Some 8,700 persons applied for asylum between January and June 2006, one third (-32%) or 4,000 persons less than during the corresponding period of 2005.

11. The downward trend observed across many parts of Europe differs slightly from the situation in the **Nordic countries**. Here, a total of 13,300 persons applied for refugee status between January and June 2006, almost the same number of asylum-seekers like in the corresponding period of 2005 (13,500). However, from the first to the second quarter of 2006, the number plummeted from 7,500 to 5,800 reflecting primarily the lower number of asylum applications submitted in Sweden and Norway (see Table 1).

² As noted in the Introduction, Italy is not included in this report due to a lack of data.

12. Over the past few years, **Europe** has received roughly eight out of 10 asylum-seekers in the 36 industrialized countries. During the first two quarters of 2006, however, its share has started to decrease indicating that now roughly seven out of 10 asylum-seekers in the 36 industrialized countries have applied for refugee status on the continent. Simultaneously, **North America's** share increased from about 20 per cent more than two years ago to almost 30 per cent during the first semester of 2006. The share of **Australia and New Zealand** on the other hand has remained fairly stable at about one per cent.

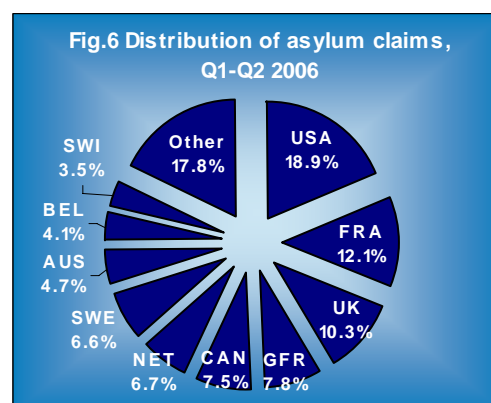

13. The number of asylum requests continued to fall during the most recent quarterly period. From April to June 2006, some 63,600 asylum applications were submitted in the **36 industrialized countries**, 11 per cent fewer than during the first quarter of the year (71,300). The downward trend in asylum applications continues in **Europe** where a 15 per cent decrease was recorded whereas in **North America**, the number of new asylum requests from Q1 to Q2 of 2006 remained stable compared to the same period last year (see Table 1 and Figures 4 and 5).

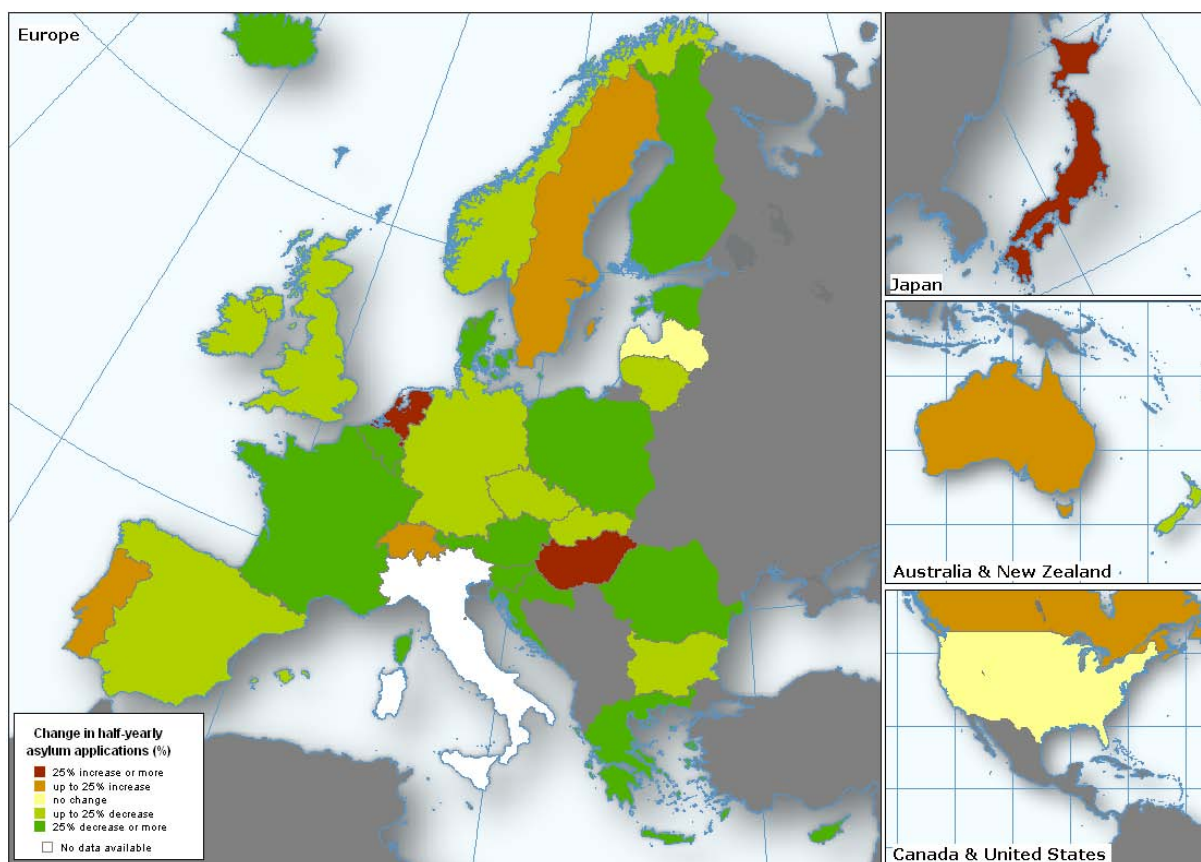

Countries of asylum

14. While **France** has been the leading asylum-seeker receiving country among the group of 36 industrialized countries from Q4 of 2003 to Q2 of 2005, the **United States** has been the top destination since Q3 of 2005 reflecting primarily the continuous decrease of new asylum-seekers in France observed since Q1 of 2005. As such, the United States received 25,500 new asylum requests during the first half of 2006, or one out of five (19%) of the total number of asylum-seekers in the 36 industrialized countries covered by this report. The total number of new applications submitted to the US Department of Homeland Security (DHS) and the Executive Office of Immigration Review (EOIR) during the first half of 2006 remained stable compared to the first semester of 2005.

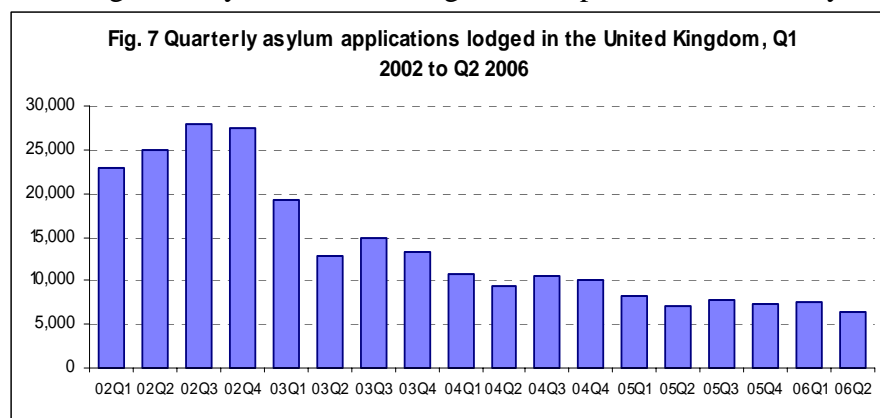

15. During the same period, **France** received 16,400 new applications, 41 per cent less than during the first half of 2005. Together, the United States (19%), and France (12%) received about three out of 10 applications in the 36 industrialized countries covered by this report (see Figure 6).

Map 1: Change in asylum applications in 36 industrialized countries, January-June 2005 compared to January-June 2006

16. In the past three years, the **United Kingdom** has witnessed a steady downward trend in the number of persons applying for asylum in the country (see Figure 7). As such, the second quarter of 2006 was the lowest number of quarterly asylum applications submitted (6,400) in the United Kingdom since at least 1999.³ In total, some 13,900 persons applied for asylum in the first six months of 2006 making the United Kingdom the third largest asylum-seeker receiving country and accounting for 10 per cent of all asylum requests lodged in the industrialized world.

Germany received the fourth largest number of asylum-seekers during the same period (10,600), followed by **Canada** (10,100), the **Netherlands** (9,000), **Sweden** (8,900), and **Austria** (6,300).

³ UNHCR's monthly asylum data collection mechanism started in 1999.

17. Two thirds of the countries included in this report experienced a fall in the number of new asylum claims lodged from the first semester of 2005 to the first semester of 2006, including large receiving countries such as **France** (-41%), **Greece** (-38%), **Austria** (-31%), **Belgium** (-29%), **Germany** (-21%), and the **United Kingdom** (-10%). Most of the remaining one third reported an increase, including the **Netherlands**⁴ (+71%), **Canada** (+15%), and **Sweden** (+11%) (see *Map 1 and Table 1*).

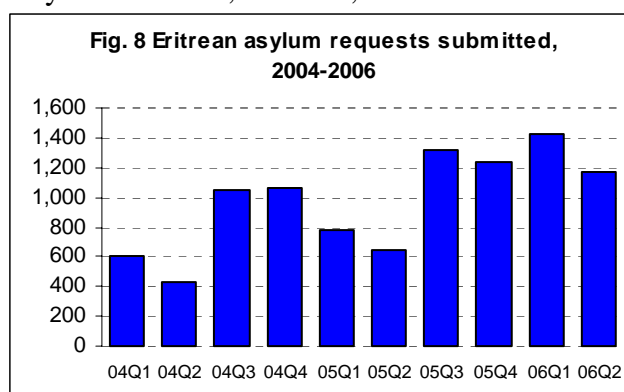

Origin of asylum-seekers

18. **China** was the leading country of origin of asylum applicants during the first six months of 2006 with 8,800 requests lodged by its citizens in the 36 industrialized countries covered by this report, followed by **Iraq** (8,500), **Serbia/Montenegro**⁵ (8,000), the **Russian Federation** (6,900), and **Turkey** (4,600) (see *Table 2*).

19. Among the leading countries of origin, those recording a strong decline in the number of asylum-seekers during the first two quarters of 2006 as compared to the corresponding period of 2005 included the **Russian Federation** (-27%), **Serbia/Montenegro**⁵ (-26%), **Turkey** (-25%), **Haiti** (-19%), **Pakistan** (-24%), and **Nigeria** (-27%). In total, 27 countries of origin reported a decrease during the first two semesters of 2006 compared to the corresponding period of 2005.

20. A few countries of origin recorded a significant decline in the number of asylum-seekers in the second quarter of 2006 compared to the first three months of the year, notably in the case of **Iraq** (-1,000 claims), **Serbia/Montenegro**⁵ (-1,000), **Zimbabwe** (-670), **Turkey** (-500), and **Armenia** (-440).

21. There were some nationalities recording a significant rise in asylum requests in the first half of 2006 as compared to the first half of 2005, most notably asylum claims submitted by **Iraqi** citizens whose applications increased by half from 5,800 to 8,500. The number was particularly high during the first quarter of the year (4,700), the highest value observed within the past three years. Among the major countries of origin, **Eritrean** applications recorded the highest increase during the first two quarters of 2006 compared to the first six months of 2005 by almost doubling from 1,400 to 2,600 (+82%), half of them being lodged in the United Kingdom alone (1,300) (see *Figure 8*). In addition, **Colombian** and **Mexican** asylum claims also increased by eight and 32 per cent respectively. While the former were primarily recorded in Spain (980), the United States (910) and Canada (590), the latter were almost exclusively submitted in North America. In total, 13 countries of origin reported an increase from the first semester of 2005 to the first semester of 2006.

⁴ Data from the Netherlands includes repeat asylum applications which cannot be differentiated from new asylum applications by the Dutch authorities.

⁵ No separate breakdown available for both countries.

22. The highest relative increase among the top-40 countries of origin during Q1 and Q2 of 2006 compared to the first two quarters of 2005 was recorded for asylum-seekers from **Zimbabwe** whose number more than doubled from 840 to 2,000 (+144%). The 1,400 asylum applications submitted during Q1 of 2006 were the highest value recorded since the first quarter of 2003. However, the number dropped again to some 700 during Q2 of 2006. The majority, i.e. two thirds (1,460) of all Zimbabwean asylum applications have been lodged in the United Kingdom. Other countries of origin reporting a relatively high increase include asylum-seekers from the **Rep. of Moldova** (+38%) and **Colombia** (+32%) (*see Table 2*).

23. There was some change in the ranking of the main countries of origin of asylum applicants. From Q3 of 2005 to Q2 of 2006, persons originating from **China** moved up the list from the third to the first position while **Iraq** dropped from first to second. After having been the leading country of origin of asylum-seekers during 2004 and parts of

Country of origin	2004				2005				2006	
	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2

Somalia	7	16	10	15	11	14	9	13	11	10

* No separate data available for both countries.

2005, asylum-seekers from the **Russian Federation** dropped to third place during Q2 of 2006. **Colombia** entered as newcomer to the top-10 list as 9th most important source country of origin of asylum-seekers reflecting the continuous deteriorating situation in the country. Conversely, **Nigeria** and the **Dem. Rep. of the Congo** do not feature in the top-10 ranking anymore since less asylum applications have been submitted by persons from these two countries in the second quarter of 2006.

Monthly trends

24. The latest monthly data indicate that the number of new asylum applications submitted in the **36 industrialized countries** covered by this report fell by four per cent in June as compared to May 2006. The **United States** continued to be the main recipient country of asylum-seekers, accounting for 20 per cent of all asylum requests lodged in June 2006, followed by **France** (11%), the **United Kingdom** (10%), **Canada** (8%) and **Germany** (7%).

25. Among the major asylum-seeker nationalities, those recording a rise in June as compared to May 2006 included **Sri Lanka** (+22%), **India** (+14%), and the **Russian Federation** (+12%). Conversely, fewer asylum-seekers were registered originating from **Afghanistan** (-33%), **Sudan** (-29%), **Bangladesh** (-25%), **Haiti** (-23%) and **Ethiopia** (-19%).

Asylum Levels and Trends in Industrialized Countries—Second Quarter 2006
UNHCR Geneva, September 2006

Table 1. Quarterly asylum applications lodged in 36 industrialized countries, 2004 to second quarter 2006

Notes

All figures are provisional and subject to change.

Germany: new applications only.

Japan: includes UNHCR estimates.

United Kingdom: data rounded to the nearest 5.

United States:

- new asylum applications registered by the Department of Homeland Security (DHS): number of cases, multiplied by 1.4 to reflect the number of persons;

- new ("defensive") requests lodged with the Executive Office for Immigration Review (EOIR), based on the number of persons.

EU-old: European Union member countries until May 2004, excluding Italy (no data available).

EU-new: 10 new EU member states, which acceded on 1 May 2004.

EU-total: All EU member states, except Italy (no data available).

Nordic region: Denmark, Finland, Iceland, Norway and Sweden.

Western Europe: EU-old plus Iceland, Liechtenstein, Norway and Switzerland.

Central Europe: Bulgaria, Croatia, Czech Rep., Estonia, Hungary, Latvia, Lithuania, Poland, Romania, Slovakia and Slovenia.

Southern Europe: Cyprus, Greece, Malta, Portugal and Spain.

Europe: All 31 European countries listed.

Non-Europe: All 5 non-European countries listed.

Total: All countries listed.

Source: Governments; compiled by UNHCR (FICSS).

Asylum Levels and Trends in Industrialized Countries—Second Quarter 2006
UNHCR Geneva, September 2006

Table 2. Asylum applications lodged in industrialized countries by origin, first quarter 2004 to second quarter 2006

Covering all 36 asylum countries listed in Table 1. Top-40 ranking of countries based on applications lodged during second quarter of 2006. Totals between this Table and Table 1 differ because USA (DHS) by origin reflect the no. of cases.

Asylum Levels and Trends in Industrialized Countries—Second Quarter 2006
UNHCR Geneva, September 2006

Table 8. Asylum applications lodged in Canada and the United States by origin, first quarter 2004 to second quarter 2006

Top-40 ranking of countries based on applications lodged during second quarter of 2006.

Totals between this Table and Table 1 differ because USA (DHS) by origin reflect the no. of cases.
